The good part is what you write.

You don't need a grand speech. Write the detail only you would notice.

- 1 Pick a page. A sentence or two is enough. Skip anything that doesn't sound like you.
- 2 Save a copy after typing in a PDF reader that supports forms. Or open the animated edition from your order page.
- 3 Read it once. Then send your finished copy privately to your person. A blank template is not the finished gift.
